Imaginary scators and quadratic mappings in three dimensions
International Journal of Bifurcation and Chaos

Dear Dr. Manuel Fernandez-Guasti,

I am pleased to inform you that your paper has now been accepted for publication as
a Regular Paper in the International Journal of Bifurcation and Chaos.

It was accepted on Aug 31, 2015.

Comments from the Associate Editor and Reviewers can be found below.

Please email me (to: eegchen@cityu.edu.hk, but not to: ijbc@wspc.com) the following
files (which I need to double check before I send it to the publisher for printing):

A zip file of ALL your original files (pdf file of the whole paper, text file, high-quality
original figures/tables, scanned pdf of signed copyright form), using your manuscript
number for the file name:

"IJBC-D-14-00368R1.zip"

In case your zip file is too big to email, you may separate it into two or three parts.
After received, I will put them together for you on my site. Or, you may FTP it to the
web for me to download.

When you finalize your paper, please remember to follow the IJBC latex style file
which is available on the journal web for downloading:

http://www.worldscinet.com/ijbc/mkt/guidelines.shtml

Please follow the IJBC format, particularly the reference and citation styles. More
specifically, the IJBC citation format is "Chua [2010]", "[Chua, 2010]", "[Chua & Chen,
2010]", "[Chua et al., 2010] (if more than two co-authors)", and the References format

is "Chua, L. O. & Chen, G. R. [2010] "Title of the paper," International Journal of Bifurcation and Chaos, 20, 1-100. Please also provide high-quality colored figures.

Thank you very much for your fine contribution to this journal. I would also like to take this opportunity to thank our Editor (see cc for his/her email address) and Reviewers for their work and support to your article.

Sincerely,

Guanrong (Ron) Chen, Ph.D.
Editor-in-Chief
International Journal of Bifurcation and Chaos
